The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-23 are rejected under 35 U.S.C. 102(E) as being anticipated by Lee, U.S. Patent #6,876,648 or Yegoshin, U.S. Patent Publication #2001/0012282.

Lee discloses in col. 2, lines 54-67, an Internet based telephone apparatus that allows an Internet based phone to communicate with a general phone via the PSTN, and will also allow that same phone to communicate with other Internet based phones through the Internet. The Internet based phone has a gateway which allows communications to take place between a phone connected to the PSTN and another Internet based phone. Also see col. 3, lines 10-50.

Yegoshin discloses in claim 6 a telephone apparatus a dual-mode communication device comprising a 1<sup>st</sup> apparatus allowing phone calls on a cell-phone network, and a 2<sup>nd</sup> apparatus that allows phone calls over an IP-LAN.

Any inquiry concerning this communication should be directed to Creighton H. Smith at telephone number 571/272-7546.
